

Joomla 2.5 Compatability

Written by UniMatrix Administrator
Thursday, 26 January 2012 00:00

Now that Joomla 2.5 is out and stable, we are seeking donors to help fund the work required to make Simply Links compatible with Joomla 2.5. We are also seeking input as to features and fixes needed in a new version (please use the feature requests forum to provide your input). We only need to raise a few hundred dollars more (UniMatrix is matching every dollar donated by the community with two additional dollars from UniMatrix)!

PLEASE POST YOUR FEATURE WISH LIST TO THE FORUM IMMEDIATELY SO WE CAN GET AS MANY NEW FEATURES AS POSSIBLE INTO THE NEW VERSION!

We expect to release the new version of SimplyLinks for Joomla 2.5 in early February, 2012.

Please donate to this project. It is open source and free, so it relies on community support from YOU.
